

Teachnology Programs

Educational Tech Primer (EDU-010)

Course Overview	Education Technology Primer helps educators, students, and professionals use digital tools in a practical, simple, and effective way. The session highlights how technology can make lessons more engaging, assessments clearer, and teaching tasks easier whether you teach in person, online, or in a hybrid setup. In just three hours, participants will learn to create digital materials, use AI to support teaching tasks, and confidently apply technology in their daily lessons. Everyone goes home with a ready-to-use Digital Lesson Starter Kit.
Learning Outcomes	By the end of the bootcamp, participants will be able to: ● Create simple, engaging digital learning materials using easy-to-use apps and templates. ● Apply AI and digital tools to improve teaching tasks such as content creation, instructions, quizzes, and feedback. ● Organize lessons and resources using digital productivity tools for a more efficient teaching workflow. ● Facilitate interactive activities using digital collaboration platforms (polls, boards, forms, breakout tasks). ● Build a Digital Lesson Starter Kit containing one activity, one assessment, and one instructional resource ready for use the next day
Who It's For	● Teachers (K to 12) ● Student teachers, pre-service educators ● Academic coordinators and school staff ● Corporate trainers and facilitators ● Students preparing for digital academic work ● Freelancers handling tutorials or e-learning projects ● Professionals needing digital teaching or presentation skills

Learning Modes, Duration, Prices & Min. Pax	● Onsite Instructor-Led 3 hours Php 1200 25 pax ● Live, Online 3 hours Php 500 25 pax
Training Outline	Module 1: Create – Designing Learning Materials Module 2: Deliver – Student Engagement Tools Module 3: Assess – Quick Digital Assessment & AI Support Module 4: Build – Digital Lesson Starter Kit
Prerequisite	None

AI Labs for Educators (EDU-110)

Course Overview	This program enables educators to improve teaching, assessment, and classroom management with artificial intelligence. Participants will learn to incorporate generative AI into lesson planning, differentiated instruction, assessment design, feedback automation, and content creation, while ensuring data privacy and ethical use. This self-paced course combines global AI literacy best practices with localized exercises for the Philippine educational context.
Learning Outcomes	By the end of the program, learners will be able to: ● Use AI tools like ChatGPT, DALL·E, and Canva to design engaging lessons and assessments ● Automate repetitive teaching tasks such as grading, lesson planning, and feedback generation ● Apply responsible and ethical AI principles within academic contexts ● Create adaptive, inclusive, and data-driven learning materials ● Strengthen cybersecurity awareness and data protection in education systems ● Integrate storytelling and questioning techniques to enhance student engagement and reflection
Who It's For	Teachers, educators, lecturers, trainers
Learning Modes, Duration, Prices & Min. Pax	● Online, Self-Paced 3-month course access Php 2600

Training Outline	● AI Foundations Awareness (Entry Level) ● AI in the Workplace ● Responsible Use of AI ● Considerations for Using AI Responsibly ● Prompt Engineering Fundamentals for Programmers Literacy (Beginner Level) ● Finetuning Your ChatGPT Prompts ● AI in Education: Adaptive Learning and Institutional Intelligence ● Cybersecurity for the Education Sector ● Cybersecurity for the Education Sector: Securing Student Data and Digital Learning Systems ● Storytelling for Leaders ● Socratic Questioning ● Automate Lesson Planning with ChatGPT ● Create Differentiated Instructions with ChatGPT ● Generate Instructional Materials and Visual Aids using Canva & DALL-E ● Automate Assessment Creation with ChatGPT ● Automate Grading and Feedback using ChatGPT
Possible Jobs	Teacher, Curriculum Coordinator, Instructional Designer, Learning Facilitator, Educational Content Developer, Academic Coach, Assessment Specialist, Teacher Trainer
Prerequisite	None

AI Literacy and Responsible AI Integration for Teachers (EDU-120)

Course Overview	AI Literacy and Responsible AI Integration for Teachers equips K–12 educators with the knowledge, skills, and ethical grounding to integrate AI responsibly and effectively into teaching and learning. Over 2 days , participants will explore foundational AI concepts, DepEd policy requirements, ethical AI use, and practical AI applications for lesson planning, instructional strategies, and assessment. Learners will leave with a Responsible AI Classroom Implementation Plan ready for immediate use.
Learning Outcomes	By the end of the program, learners will be able to: ● Explain the key provisions, principles, and implications of DepEd Order No. 003 s. 2026 for classroom practice. ● Demonstrate foundational AI literacy, including how AI systems work and how they are applied in educational contexts. ● Apply ethical and responsible AI practices consistent with national policy and global standards. ● Integrate AI tools effectively into lesson planning, instructional strategies, and assessment design. ● Critically evaluate AI-generated content for accuracy, bias, reliability, and curriculum alignment. ● Design student-centered, AI-enhanced learning activities aligned with curriculum competencies. ● Develop a Responsible AI Classroom Implementation Plan for use in their own school context.
Who It's For	Elementary, Junior High, and Senior High School Teachers; Master Teachers, Academic Coordinators, ICT Coordinators, School Technology Champions; optional for School Administrators
Learning Modes, Duration, Prices & No. of Pax	● Online Instructor-Led 16 hours Php 900 up to 500 pax ● Onsite Instructor-Led 16 hours Php 3000 up to 100 pax
Training Outline	● Module 1: Introduction to Artificial Intelligence in Education ● Module 2: Understanding DepEd Order No. 003, s. 2026 ● Module 3: Ethical and Responsible AI Use ● Module 4: AI Tools for Teaching and Productivity ● Module 5: Designing AI-Enhanced Learning Activities ● Module 6: Developing Responsible AI Classroom Policies

Possible Jobs	AI Integration Specialist, Educational Technology Coordinator, Instructional Designer, Curriculum Developer, EdTech Consultant, Learning Experience Designer, AI-Powered Assessment Specialist, Adaptive Learning Coordinator, Educational Data Analyst, Digital Learning Facilitator
Prerequisite	Basic computer literacy; familiarity with teaching or classroom management

AI Leadership and Governance for Academic Leaders in Basic Education (EDU-130)

Course Overview	AI Leadership and Governance for Academic Leaders prepares principals, school heads, department chairs, and division supervisors to strategically implement DepEd Order No. 003, s. 2026 . Over 2 days , participants will develop institutional AI governance competencies, including policy development, risk management, staff mentoring, and culture leadership – ensuring safe, responsible, and effective AI integration across their schools.
Learning Outcomes	By the end of the program, learners will be able to: ● Analyze and articulate the governance implications of DepEd Order No. 003 s. 2026 for their school or division ● Evaluate AI tools for educational suitability, ethical compliance, and student data privacy ● Develop a School AI Governance Framework aligned with national policy and local context ● Design professional development pathways to build AI literacy and responsible AI use among teaching staff ● Establish mechanisms to monitor, evaluate, and continuously improve AI integration ● Lead organizational culture change that promotes responsible AI adoption while upholding pedagogy and student welfare ● Communicate AI policy decisions effectively to teachers, parents, students, and the wider school community
Who It's For	School Principals, Assistant Principals, School Heads, Department Heads, Academic Track Heads, Education Program Supervisors, Master Teachers in Leadership Roles, ICT Coordinators, School Governing

	Council Representatives (optional)
Learning Modes, Duration, Prices & No. of Pax	● Online Instructor-Led 16 hours Php 900 up to 500 pax ● Onsite Instructor-Led 16 hours Php 3000 up to 100 pax
Training Outline	● AI in Education: A Leader's Perspective ● Policy Analysis: DepEd Order No. 003 s. 2026 ● AI Governance Framework Design ● Leading Teacher Professional Development in AI ● Evaluating AI Integration and Managing Risk ● Stakeholder Communication & AI Culture Leadership
Possible Jobs	AI Integration Specialist, Educational Technology Coordinator, Instructional Designer, Curriculum Developer, EdTech Consultant, Learning Experience Designer, AI-Powered Assessment Specialist, Adaptive Learning Coordinator, Educational Data Analyst, Digital Learning Facilitator
Prerequisite	Experience in school leadership or academic administration; familiarity with K-12 operations and policies

AI in the Workplace Practical AI Literacy for Non-Academic School Personnel (EDU-140)

Course Overview	This 1-day training equips non-academic school personnel with practical AI literacy to navigate the increasing use of AI in school operations safely and responsibly. Participants will understand how AI works, identify the AI tools they encounter in their daily tasks, apply data privacy and ethical practices, and contribute to a responsible AI culture within their school. Through hands-on exercises and role-specific scenarios, participants will leave with a Personal AI Use Checklist they can immediately apply to their work.
Learning Outcomes	By the end of the program, learners will be able to: ● Describe what Artificial Intelligence is and how it is being applied in schools. ● Identify AI tools they encounter in their daily work and understand the data these tools collect. ● Recognize and apply data privacy responsibilities under the

	Data Privacy Act of 2012 (RA 10173). ● Apply basic responsible AI practices, including verifying AI outputs and protecting sensitive information. ● Respond appropriately to AI-related concerns in their work area. ● Contribute positively to a responsible AI culture in their school.
Who It's For	Non-teaching, non-academic school personnel, including: ● Administrative officers and school clerks ● Registrars and records staff ● Guidance counselors and psychometricians ● Finance and budget officers ● Librarians and media center staff ● School nurses and clinic staff ● Utility, maintenance, and security staff
Learning Modes, Duration, Prices & No. of Pax	● Online Instructor-Led 16 hours Php 500 up to 500 pax ● Onsite Instructor-Led 16 hours Php 1500 up to 100 pax
Training Outline	● Session 1: What Is AI and Why Does It Matter to Me? ● Session 2: Protecting Data — Your Responsibilities When Using AI ● Session 3: Using AI Tools Safely and Responsibly ● Session 4: Being Part of a Responsible AI School Community
Prerequisite	None
